1. What is PIS?

PIS stands for Probation and Parole Information System. As the name implies, the system is used for managing probation, parole, and pardon docketing, routing, fact sheets, and organizational records across field offices and workflow queues.

The system automatically processes and aggregates tracking and docketing workflows. Users can search, view, update, attach files to, route, and remove records according to their assigned role and permissions.

Users can add, update, and delete records after selecting the corresponding module and action. They can export visible table data through CSV, PDF, and EXCEL buttons, and print records through the Print button where those controls appear on data tables.

Users can filter records instantly by typing directly into inline column search headers or by selecting values from drop-down filters above table columns. Filtered results update automatically as criteria are entered.

Manual purpose: This manual guides probation and parole staff through the PIS website using the actual screens and labels shown in the system.

Role access: Menus may vary by user role. If a module is not visible, ask the system administrator to check your account permissions.

Screenshot indicators: Red boxes and arrows labeled **Click** show the control to select in each screenshot.

2. System Modules

- **Docketing** - Work with probation, parole, and pardon docket records.
- **Docket Routing** - Route dockets between offices or workflow queues.
- **Sent and Inbox** - Review items that were sent or received.
- **Fact Sheet** - Open and maintain client fact sheet records.
- **Forms** - View and add documents when permitted.
- **My Organization** - Maintain users, roles, field offices, regions, and permissions.

3. Logging In

1. Open **http://localhost/pis/** in a supported browser.
2. Type your username in the **Email address** field.
3. Type your password in the password field.
4. Click **SIGN IN**.
5. Wait for PIS to open the first page allowed for your account.

Login page

4. Navigation

1. Use the left menu to move between **Docketing**, **Docket Routing**, **Fact Sheet**, **Forms**, and **My Organization**.
2. Click a menu group such as **Probation**, **Sent**, **Inbox**, or **My Organization** to show its submenu.
3. Click the exact module name you need to open.

Probation Investigation

Use this page to find, review, update, attach files to, or remove probation investigation dockets.

1. From the left menu, open **Probation Investigation**.
2. To find a record, enter the known information in **Docket Number**, **CC Number**, **Name**.
3. Click **Run search** to apply the search.

PIS End User Manual

- In the **Actions** column, use **View**, **Update**, **Attachments**, **Remove** for the selected row.
- To filter the table instantly, type characters directly into the inline search boxes in the column headers, or select a value from any drop-down filter shown above a column. The table updates automatically as you type or select.
- To export the currently displayed table data, click **CSV**, **PDF**, or **EXCEL** above the table when those buttons are shown. The system downloads the visible records in the selected format.
- To print the table, click **Print**. The native browser print window opens. Review the layout settings, then click **Print** in that window to complete printing.

PIS End User Manual

The screenshot shows the PPIS interface with a sidebar menu on the left containing sections like DOCKETING, DOCKET ROUTING, FACT SHEET, FORMS, and MANAGEMENT. The main area displays a table of docketing records under the heading 'Parole and Pardon Docketing'. A modal dialog is open in the center, asking 'Permanently remove docket?' with a warning that the action cannot be undone. The dialog has 'Cancel' and 'Remove permanently' buttons. Red arrows point to these buttons with the text 'Click Click'. The table below has columns for #, Docket Number, Full Name, Referring Office, and Actions. It lists 10 records, each with 'View', 'Update', 'Attachments', and 'Remove' actions. A pagination bar at the bottom shows 'Showing 1 to 10 of 36 entries' and page numbers 1 through 4.

Parole and Pardon Supervision (Attachments)

Parole and Pardon Supervision (Delete)

Deletion warning: Use **Remove** only for sample/test records or records approved for deletion. For documentation, stop at the confirmation dialog unless removal is required.

1. On the **Parole and Pardon Supervision** list page, locate the sample, test, or authorized record.
2. Click **Remove** in the **Actions** column.
3. Wait for the confirmation modal dialog box to appear.
4. Read the confirmation message carefully. The system warns that removal cannot be undone.
5. Click **Cancel** inside the modal dialog to stop, or click **Remove permanently** inside the modal dialog only when deletion is authorized.
6. Wait for the modal dialog to close. The table refreshes to reflect the remaining records.

The screenshot shows the PPIS (Parole and Pardon Information System) interface. A confirmation dialog box is open, asking "Permanently remove docket?". The dialog text states: "You are about to permanently remove docket PR-2025-08-00008. This cannot be undone. Only continue if you are certain." There are "Cancel" and "Remove permanently" buttons. A red box highlights the "Remove permanently" button, with a red arrow pointing to it from the word "Click" in the text. The background shows the "Supervision Docket" table with columns: #, Docket Number, Received Date, Name, Criminal Case No., Field Office, and Actions. The table lists 10 entries, all from the "Ormoc City Parole And Probation Office". The "Actions" column for each entry contains links for View, Update, Attachments, and Remove.

Fact Sheet Probation list page

Fact Sheet Parole and Pardone

Use this page to manage client records for parole and pardone workflows.

1. From the left menu, open **Fact Sheet Parole and Pardone**.
2. If the page has tabs, select the needed tab, such as **Parole, Pardone**.
3. To find a record, enter the known information in **Search Client**.
4. In the **Actions** column, use **Update, Attachments** for the selected row.
5. To filter the table instantly, type characters directly into the inline search boxes in the column headers, or select a value from any drop-down filter shown above a column. The table updates automatically as you type or select.
6. To export the currently displayed table data, click **CSV, PDF, or EXCEL** above the table when those buttons are shown. The system downloads the visible records in the selected format.
7. To print the table, click **Print**. The native browser print window opens. Review the layout settings, then click **Print** in that window to complete printing.

User Roles list page

User Roles (Update)

1. On the **User Roles** list page, locate the record that needs correction.

2. Click **Update** in the **Actions** column.
3. Wait for the modal dialog box to appear on the screen.
4. Review the current details and update **User Role Name**, **Search** inside the modal dialog.
5. Click **Confirm** inside the modal dialog to submit the changes.
6. If the system displays a confirmation prompt, review the information and click **Confirm** to save the updated record.
7. Wait for the modal dialog to close. The table refreshes and displays the updated record.

The screenshot displays the PPIS User Roles List page. A modal dialog titled "Update User Accounts" is open, showing the current details for the "SYSTEM ADMINISTRATOR" role. The modal has fields for "User Role Name" and "User Role Description", and "Cancel" and "Confirm" buttons. The background table lists 10 user roles, including "SYSTEM ADMINISTRATOR", "CENTRAL OFFICE USER", "REGIONAL OFFICE CLERK", "FIELD OFFICER", "FIELD OFFICE CLERK", "Regional Director", "Assistant Regional Director", "Administrator", "Deputy Administrator", and "CMRU(REGIONAL OFFICE)". The "Actions" column for each role contains an "Update" button. The "Permission" column contains "Grant Permission" and "Update Permission" buttons. A red box highlights the "Update Permission" button for the "Deputy Administrator" role, with a red arrow pointing to it and the word "Click".

User Roles (Update)

Region (Delete)

Deletion warning: Use **Remove** only for sample/test records or records approved for deletion. For documentation, stop at the confirmation dialog unless removal is required.

1. On the **Region** list page, locate the sample, test, or authorized record.
2. Click **Remove** in the **Actions** column.
3. Wait for the confirmation modal dialog box to appear.
4. Read the confirmation message carefully. The system warns that removal cannot be undone.
5. Click **Cancel** inside the modal dialog to stop, or click **Remove** inside the modal dialog only when deletion is authorized.
6. Wait for the modal dialog to close. The table refreshes to reflect the remaining records.

Region (Delete)

Region (Add Record)

1. On the **Region** page, click **Add Region**.
2. Wait for the modal dialog box to appear on the screen.
3. Enter **Region**, **Description**, **Search** inside the modal dialog.
4. Click **Confirm** inside the modal dialog to submit the new record.
5. If the system displays a confirmation prompt, review the information and click **Confirm** to save the entry.
6. Wait for the modal dialog to close. The table refreshes and displays the newly added record.

Region (Add Record)

Permission

Use this page to maintain permission records used by the system.

1. From the left menu, open **Permission**.
2. To find a record, enter the known information in **Search**.
3. In the **Actions** column, use **Update** for the selected row.
4. To filter the table instantly, type characters directly into the inline search boxes in the column headers, or select a value from any drop-down filter shown above a column. The table updates automatically as you type or select.
5. To export the currently displayed table data, click **CSV**, **PDF**, or **EXCEL** above the table when those buttons are shown. The system downloads the visible records in the selected format.
6. To print the table, click **Print**. The native browser print window opens. Review the layout settings, then click **Print** in that window to complete printing.

Permission list page

Permission (Update)

1. On the **Permission** list page, locate the record that needs correction.
2. Click **Update** in the **Actions** column.
3. Wait for the modal dialog box to appear on the screen.
4. Review the current details and update **Permission Name**, **Type**, **Detail**, **Search** inside the modal dialog.
5. Click **Confirm** inside the modal dialog to submit the changes.
6. If the system displays a confirmation prompt, review the information and click **Confirm** to save the updated record.
7. Wait for the modal dialog to close. The table refreshes and displays the updated record.

Permission (Update)

Permission (Add Record)

1. On the **Permission** page, click **Add Permission**.
2. Wait for the modal dialog box to appear on the screen.
3. Enter **Permission Name**, **Type**, **Detail**, **Search** inside the modal dialog.
4. Click **Confirm** inside the modal dialog to submit the new record.
5. If the system displays a confirmation prompt, review the information and click **Confirm** to save the entry.
6. Wait for the modal dialog to close. The table refreshes and displays the newly added record.

Permission (Add Record)

11. Safe Editing, Deleting, and Troubleshooting

- Use **View** when you only need to check record details.
- Use **Update** only when you are authorized to change the selected record. Review the fields inside the update screen or modal dialog, then click **Confirm** or **Update** to save.
- Use **Attachments** to upload, view, download, or delete supporting files tied to the selected record.
- Use **Remove** only for records approved for deletion. For training, use sample/test records and click **Cancel** inside the confirmation modal unless deletion is required.
- To filter a table instantly, type in the inline column search headers or use drop-down filters above the columns.
- To export table data, click **CSV**, **PDF**, or **EXCEL** when those buttons appear above the table.
- To print table data, click **Print**, review the browser print layout settings, then execute print from the browser print window.
- If search results look wrong, clear the search field and click **Run search** again.
- If a menu is missing, ask the administrator to check your role and permission settings.
